Clothing Technician Profile Update via Education

More than just a project

The idea to match our project's name with the sector gave birth to **CoSTUmE**...

And to tailor a good costume, you need to measure well, to design it making sure it covers the needs, to give to it characteristics that make it up-to-date, enable it to be agile and... well, we are actually talking about a project that Updates the Clothing Technician Profile via Education and promotes cooperation between industry and vocational and educational training.

In Portugal, Spain & Romania, we:

Mapped a **Roadmap on Qualification Needs and Work Based Learning Good Practices for the Textile & Clothing sectors**; to reveal skills mismatches between the qualification offer and labour demands in the textile and clothing sector.

Developed the new, updated **Clothing Technician Profile and Qualification** that redefines the persona of the professionals; to cover the needs and increase the interest of youngsters in enrolling in technical qualifications and workers to update their qualification.

Created a **Matrix ECVET** that enables accredited learning mobility between the countries; to increase the possibilities of learners gaining international experience and transversal skills.

Put together a **Tutorial Guide for Mobility** that answers to all the questions of individuals and organisations on how to uptake mobility actions; to promote the international cooperation between learning providers and companies of the sector.

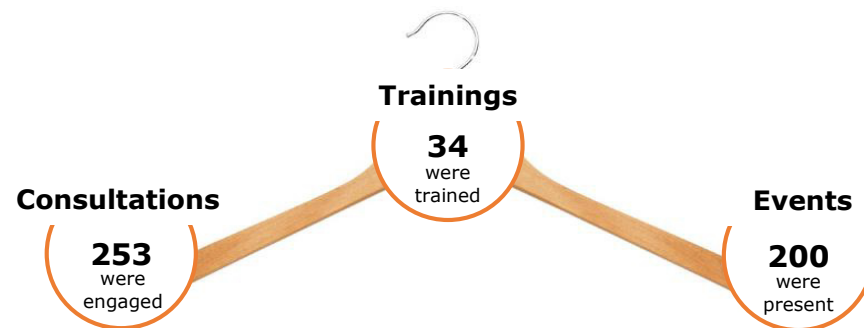

Concluded with an extensive **Training Package** for educators and companies leaders that introduces them to the CoSTUmE methodology; to deploy specialized trainers able to implement the innovative intervention.

COSTUME

Our Methodology and results were created **side-by-side** with the involvement of **National authorities, T&C companies, VET experts and sectorial partners.**

Through different formats we reached out to more than **500 stakeholders!**

The CoSTUmE partners invite you to use the methodology and results produced, and keep in mind that:

WE STAY ON

Because now is your turn to "tailor" your adventure, using the CoSTUmE resources and the support from our specialized national partners
